WEI ZHOU
Position
Committee Member
Organisation/Company
MoT, China

Mr. Zhou Wei, former Chief Engineer of MoT, China, has assisted the Minister and Vice Minister in charge of the technical management of highway engineering. His work was to guide the preparation and review of highway engineering technical standards and specifications, to be entrusted by the leaders of the MoT, to preside over the research and solution of major engineering technical problems, to guide the demonstration of major scientific research projects and major engineering technology introduction projects, and to preside over the daily work of the expert committee of the MoT.

KIRAN K. KAPILA
Position
Committee Member
Organisation/Company
International Road Federation

Mr. K.K. Kapila is the CMD of Intercontinental Consultants & Technocrats Pvt. Ltd. (ICT), a leading multidisciplinary Company with presence in 47 countries. He holds Fellowship to the American Society of Civil Engineers, New York Academy of Sciences and Institution of Engineers (India). He was a Member of Executive Committee of ‘Fédération Internationale des Ingénieurs – Conseils’ (FIDIC) from 2013 to 2017. He has won many accolades in India and internationally, such as: 1. The “STAR CEO OF THE YEAR” Award by “Business Today” and “Yes Bank” 2. “Pride of India” Award by Indo-American Friendship Group 3. “Niryat Shree” Award from the President of India.

He is the Honorary Chairman of the International Road Federation (IRF) and the first non-European unanimously elected to this position. He has been passionately pursuing various road safety initiatives, especially in the developing world, in line with the UN Decade of Action.
Tang Boming is a national candidate for the National "Ten Million Talent Project", an expert who enjoys special government allowances of the State Council, and a contact expert of the Organization Department of the Central Committee of the Communist Party of China, Member of the Expert Committee of the Ministry of Transport, and member of the National Colleges and Universities Establishment Evaluation Committee. From 2004 to present, he has served as president and deputy secretary of the Party Committee of Chongqing Jiaotong University. He has also served as vice chairman of Chongqing Science and Technology Association and deputy director of China Highway and Transportation Society. He mainly engaged in transportation engineering, higher education, transportation history and culture research.

Professor Alex Visser is an emeritus professor in the Department of Civil Engineering who was the SA Roads Board Professor in Transportation Engineering at the University of Pretoria with a career of more than 20 years at the University. He is a Fellow and Past-President of the South African Institution of Civil Engineering (SAICE) and a Fellow of the South African Academy of Engineering. In 1998 he was awarded the SAICE Award for Meritorious Research for his contributions to low volume road technologies and in 2004 he received the Chairman's Award from the Transportation Division for contributions to transportation engineering. He was awarded Emeritus membership of the US Transportation Research Board Low-Volume Roads committee in 2006 for lifelong services rendered. Besides providing mentorship to undergraduate and post-graduate students, he also administers the post-graduate programme in the Department. This involves responding to queries from prospective students regarding uncertainties not covered in the post-graduate brochure.
Mr. Song Hailiang is a senior engineer and recognized by State Council of China as a highly professional talent. He has a doctoral degree in management science from Tianjin University. He has won several awards, including the “Entrepreneur that Wins Most Attention in 2008”, “Top 10 Modern Entrepreneur”, “Role Model of Central Enterprises”, etc. He studied port machinery design and manufacturing at college and used to serve as engineer, chief engineer, head of business development and Vice President of CCCC Water Transportation Design Institute. He became President in 2001 and Chairman as well in 2006. In August of 2012, he took office as Assistant President of CCCC, Chairman and General Party Secretary of Shanghai Zhenhua Port Machinery Company (ZPMC). He started to serve as General Manager of CCCC Maritime Heavy Machinery Manufacturing Department in July of 2013. He took office as Vice President of CCCC in January, 2014 and Chairman, General Party Secretary, President of ZPMC in March, 2014. He served as Vice President of CCCC, as well as Chairman of ZPMC since 2015. He remained Vice President of CCCC in 2017. He became President of CCCC in 2018.

Mr. Wenjie LIU had served to date as the secretary General and vice president of China Highway and Transportation Society (CHTS), and the Chinese ambassador of the international road alliance (IRF). He has founded the magazine China Highway in 1994 and Presided over the edition of A Guide of Chinese Roads, A Guide of Chinese Bridges and other famous journals and magazines. Besides, he launched the Belt and Road International Transport Alliance, and established the Future Transport Research Institute. He has made tremendous contribution to transportation development in China.
Prof. George A. Giannopoulos is transportation planner, Professor emeritus of the Aristotle University of Thessaloniki and corresponding member of the Academy of Athens. He is the immediate past Director of the Hellenic Institute of Transport, the National Transport research Organisation of Greece, which he founded and chaired for 16 years. He is currently advisory Professor at the Beijing Jiaotong University, member of the Energy Steering panel of the European Academies Science Advisory Council (EASAC) and member of the US/TRB Research Innovation Implementation Committee. He has extensive experience in Transportation Planning and Policy issues as well as on ITS, urban mobility plans, freight transport and distribution. For six years he was co-chair of the TRB International Cooperation Committee working on international research governance and cooperation issues as well as on research implementation.

Jacob Bangsgaard has been leading ERTICO – ITS Europe since 1st January 2017. ERTICO is a multi-sector platform with 123 partners from more than 25 countries and with headquarter in Brussels, Belgium. He worked for ERTICO also from 2001-2006 as Director of International Affairs and communications where he was responsible for the international deployment support for ITS on markets like China, India, Russia, and Brazil. Mr Bangsgaard is a Danish national with a university background in international economics and 26 years’ experience working in Brussels on transport and mobility issues. He has also represented mobility interests for a regional authority and he worked for two years in the European Commission Transport Directorate. Jacob Bangsgaard is also President of the MaaS Alliance, and was on the Board of Euro NCAP from 2010-2016 and Secretary General of the Belgian association eSafetyAware from 2009-2016.

Technical Committees

GREG SMITH
Position
Director of Transport Safety Technical Committee
Organisation/Company
International Road Assessment Programme (iRAP)

I am passionate about working with countries that want to improve road safety. Currently road crashes are the number one cause of death for young people; a tragedy given that serious road trauma is preventable. At iRAP I have the opportunity to help countries invest in road safety, improve road designs, build capacity and set challenging policy targets. We can make road death and serious injury a thing of the past!

XUESONG WANG
Position
Director of Transport Safety Technical Committee
Organisation/Company
Tongji University

Mr. Xuesong WANG is currently a professor and doctoral tutor at the School of Transportation Engineering of Tongji University. Mainly engaged in teaching and scientific research on road traffic safety, is currently deputy director of the Key Laboratory of Road and Traffic Engineering Ministry of Education, deputy director of the Engineering Research Center of Road Traffic Safety and Environment Ministry of Education, etc. As the project leader, he presided over over 3 projects of the National Natural Science Foundation of China (including 1 for Youqing, Noodles, and Youth), and as the project leader, presided over 1 key intergovernmental international scientific and technological innovation cooperation special project, and presided over the "12th Five-Year" countries 1 sub-topic of science and technology support plan, as the person in charge of 2 key projects of Shanghai Science and Technology Commission.
At present, he is the Deputy Director of the Environmental Resources Department of the Transport Planning and Research Institute of the Ministry of Transport. He is mainly engaged in policy research and planning consultation on energy conservation and emission reduction of transportation, coping with climate change, low-carbon transportation, etc. Responsible for or deeply participated in more than 50 scientific research topics related to energy conservation and emission reduction of transportation and response to climate change, low-carbon transportation, green freight transportation, industrial system and mechanism, comprehensive transportation planning, etc. Currently, he mainly participated in the research and consultation on the integrated high-quality development of Xiong’an new area, transportation power, 2022 Winter Olympic Games, Hainan Free Trade Zone, Guangdong-Hong Kong-Macao Greater Bay Area and Yangtze River Delta, and deeply participated in the research and consultation on the green transportation system system, energy conservation and emission reduction market mechanism, green road, green freight, promotion and application of new energy vehicles.

SUSANNA ZAMMATARO

Position
Director of Sustainable Transport Technical Committee

Organisation/Company
International Road Federation

In her capacity as Director General of the International Road Federation (IRF) in Geneva, Switzerland, Susanna Zammataro is responsible for developing and implementing strategic plans for the organization. Established in 1948, IRF is a membership-based organisation, representing leading corporate and institutional players drawn from the road and mobility sectors worldwide. Recently named as one of the 40 Most Remarkable Women in Transport by TUMI, she is the in-house expert on sustainability and responsible for the overall environmental programs and activities run by the IRF. Susanna is an unrelenting advocate for road safety. She is a member of the Advisory Board of the FIA High Level Panel on Road Safety and serving since 2012 as the Co-Chairperson of the “Safer Roads and Mobility” Pillar of the United Nations Road Safety Collaboration Group (UNRSC), a global multi-stakeholder partnership whose aim is to facilitate international cooperation and to strengthen global and regional coordination.

QUANSHENG HUANG

DAPENG PENG

Position
Deputy Secretary-General

Organisation/Company
China Communications Construction Company Limited

Peng Dapeng was born in April, 1973 and serves as a professor-level senior engineer. He got his bachelor's degree in Road and Bridge Engineering of SouthEast University in China and also owns EMBA from University of Texas, Arington. He joined CRBC in 1995 and was responsible for several key projects from 1995 to 2002, including Bachuma Gate–Voi–Mitto Anden Road Project, A109 High Way, Mtaita-Taveta Road Project, Malindi–Garsen-Hola Road Project, etc. He took office as head of Vietnam Office of CRBC since June, 2002 and became General Director of Marketing Department, CRBC in November, 2011. He served as VP of CCCC International since April, 2014.

ASHISH GAJUREL

Position
Deputy Secretary-General

Organisation/Company
Nepal Automobiles’ Association (NASA)

Ashish Gajurel is General Secretary of Nepal Automobiles' Association (NASA). He is also working as a Consultant for Infrastructure Development at Investment Board Nepal, Government of Nepal. He completed Master of Science (M.Sc.) in Transportation Systems from Technische Universität München (TUM), Germany. He has authored numerous articles for national electronic and news media about traffic management, transportation infrastructure, public transportation, and so forth and a book "Performance Based Contracts for Road Projects". He has also taught Transport Economics and Public Transportation at the Institute of Engineering, Tribhuvan University.
Stanislav’s background in transportation industry covers different fields from business development projects and international R&D programs to the regulating and standardization issues. His rich experience in different segments of transportation and infrastructure (the largest materials producing companies like Stern Cement, KOCH Materials and TNK-BP, control, managing and standardization organizations like ROSDORNII, Rosavtodor, Russian Union of Industrials and Entrepreneurs and the leading R&D centers of National University of Science and Technology “MISiS”, Russian University of Transport “MIIT”, “Center for environmental industrial policy” of Russia) provides Stanislav abilities for the deep and efficient analysis, targeting and planning of complex interdisciplinary issues. His highly actual studies and publications in wide range of “Green Technologies and Materials” have got Stanislav the expert of 5th Committee of China Highways & Transportation Society and the important role in the technological modernization of the road industry in Russia.

Since January 2003, she has been working in CHTS, and has successively held the positions of academic staff, Director of International Cooperation Department, etc. She is responsible for BRITA organization activity, participates in BRITA research project, and is responsible for organizing World Transport Convention (WTC) and Belt and Road International Transport Symposium and China-Africa Transportation Infrastructure Cooperation Forum. Since 2009, she has been the assistant of China Liaison Ambassador of International Road Federation (IRF). Since 2017, she has been a member of the International Cooperation Committee of the American Transportation Research Association. Since 2019, she has also served as the Deputy Secretary-General of the newly established Working Committee on Automated Driving of CHTS and the expert of the ISO / IEC working group.
